## SOCIAL DUTIES.

While the men folks are working industriously to build up Reno the ladies are in some respects neglecting their part of the work. One of the important things to do is to impress strangers and new comers favorably and give them pleasant feelings towards the town and the people. No one can imagine the importance of this matter who has not given some thought to it. We find it necessary to scold the ladies of Reno a little in the matter of making the acquaintance of new comers. It has very often been remarked that they are very derelict in this duty and allow ladies who move here to suffer unpardonable neglect. We should all remember that to change from one home to another is no small trial and causes heartaches and homesickness. Ladies feel these things more than men and it is cruel for them to have to sit at home for weeks without a welcome from anyone. The ice could very easily be broken by a very little effort, and it would well repay our ladies to be more thoughtful and considerate.

## EDITORIAL NOTES.

There is a very well authenticated story in Washington to the effect that even if the bill for the relief of Porter gets through the House it stands no chance of becoming a law. A Cabinet officer is reported as saying that the President will veto the bill if it ever reaches him. According to the statement of the Cabinet officer in question the Porter matter has been discussed several times at Cabinet meetings, and each member of the Cabinet expressed himself very freely with regard to the case. Only one member—Secretary Frelinhuysen—is a friend to Porter.

Washoe is as ably represented in both branches of the Legislature as she has ever been, and it should be the aim of every good citizen to encourage and assist them in every way possible, and not allow petty bickerings and jealousy to interfere with the duty they owe to themselves and the people. To cast slurs and find fault for the purpose of enhancing one's own selfish ambitious ends is calculated to hamper the efforts of our representatives and is uncalled for. We hope no more of it will be indulged in.

Inasmuch as the growing capacity of the Chicago grain elevators already reaches 25,000,000 bushels, it would, says the Philadelphia Record, take an enormous amount of money to "corner" the grain market in that city if the railroad companies controlling the elevators did not sometimes join the speculators. If the railroads could be so curbed as to keep them within the bounds of their legitimate business the day of the Chicago grain "corner" would soon be ended.

Wild goats roam the mountains around Harper's Ferry, Va. When the war broke out large numbers of tame animals, frightened by the firing, took refuge on the Maryland Heights and have never returned. They are frequently killed by hunters, but they persistently refused to descend, and the sense of danger experienced by the goats of 1861-62 seems to have been transmitted to their posterity.

A Canadian paper says that Jews are the longest lived people. The mortality among infants, so great everywhere, and said to be unusually so in Montreal, is among the Hebrews but 10 per cent. The mean age of the Jewish life is given as 48 years. One-fourth of them live to be 71, and another fourth survive to see their 80th year.

The Ninth and Tenth Regiments of Rhode Island Volunteers, who were in the service of the Government in 1863 for three months, claim that they were never mustered out and are entitled to full pay to date. It will require \$5,000,000 to pay them.

The experiment was made last year of fitting up a room in one of the public schools of Boston for instruction in

the art of wood carving. The pupils seem to have enjoyed it and developed an unexpected degree of ability.

The Czar has signed a decree dissolving all the secret societies in Russia. It comes over the wires like a joke. No doubt the Czar would like to dissolve the Nihilists, but the chances are that they will dissolve him first.

There died at Lyons, France, a couple of weeks ago, one Mme. Lacene, a sister-in-law of Camille Jordan, who had in her youth been a personal friend of Mme. de Stael and Mme. Recamier. She was 105 years old.

Bodie produced last season something over \$2,200,000 in bullion, and paid \$940,000 in dividends. It is slightly obscured by a cloud now, but will doubtless come out as bright as a dollar before many months.

Much is being said about the necessity of reducing miners' wages in this State. It is claimed that mining cannot be successfully conducted with wages at their present standard.

Speaker Varian's bill to regulate fees and compensation for official and other services in the State of Nevada should be slightly amended and passed. It is a good bill.

The highest honor ever granted by the University of Zurich, Switzerland, the degree of Doctor of Philosophy, has been won by Miss M. C. Thomas, a Baltimore lady.

Throughout New England yesterday and last night the mercury marked 20 to 23 degrees below zero. It was also as low at Bridgeport, Cal., about the first of the week.

General Sherman writes to Private Dalzell to again say that he doesn't want to be President. He says he desires to spend the evening of his life in St. Louis.

The Milwaukee Fire—More Burned Bodies Found.

MILWAUKEE, Jan. 12.  
 The identified dead now number 23 and 45 missing. Three employees—Matilda Luce, Annie Mueller and Alice Stohl—reported missing, turned up this evening all right. The five bodies exhumed from the ruins are burned beyond recognition, and one is in view under a pile of bricks. Thus it is supposed 39 bodies are still in the ruins, making a total loss of 67, as far as can be ascertained.

GALENA, Jan. 13.  
 James Earnest of Shellsburg, once a member of the Legislature and a prominent Democratic politician, was doubtless in the ruins of the Newhall House.

DEBUQUE, Jan. 13.  
 The fund started for those heroic firemen who labored to save the servants of the Newhall House will likely reach a large sum.

CHICAGO, Jan. 13.  
 A Times Milwaukee dispatch intimates that George Scheller, proprietor of the Newhall House bar-room, could, if he would, tell of the origin of the fire, and that his actions at the time and since are suspicious.

MILWAUKEE, Jan. 13.  
 Search in the ruins of the Newhall House this forenoon resulted in finding three bodies, all burned beyond identification, making eight bodies found in the ruins so far and 30 victims, not the slightest knowledge of whose bodies they are. All the remains found so far were discovered in excavations started from the main entrance in Broadway. It is supposed that burned humanity will be found near the area back of the office.

At a meeting of the Chamber of Commerce at noon to-day, a call was issued for volunteers, and it is expected 500 men will respond.

An Undertaker With a Death-bed Conscience.

ERIE, Pa., Jan. 13.

Yesterday Reeder Moore of Waterford shot himself while lingering between life and death. He sent for Miss Patterson, to whose rejection of his suit he owed the despondency that caused him to commit the deed. They had an affecting interview, surrounded by coffins and other paraphernalia of an undertaker's shop. Later Moore was told he could not live. He evidently had something on his mind, but was determined not to tell it he was going to die. Finally he sent for an old friend named Fred Cummings, and ordered the room cleared. In half an hour the interview was over, and Cummings drove away at great speed. From words overheard by those at the door, and from a statement of Frank Moore, brother of the deceased, it is reported that the confession made to Cummings was in relation to a heinous crime committed at this place about eight years ago and for which Charles Stafford was sent to the penitentiary for 20 years. The crime was rape and Miss Edith Woodward was the victim. She was waylaid by masked men on the border of a wood, and a week later Stafford was arrested. The evidence was purely circumstantial, and but for one piece of testimony he would have been acquitted. A witness swore positively that the accused admitted in confidence to him that he committed the outrage. The witness who sent Stafford to State Prison for 20 years was Reeder Moore, the suicide, and it is believed his death-bed confession to Cummings will exonerate Stafford.

Fire-trap Hotels in the Western Country.

CHICAGO, Jan. 13.

A commercial traveller who has had long experience in the hotels of the northwestern States, in an interview, mentions some twenty-five cities of medium size which are worse fire-traps, if possible, than the Newhall House. He considers the hotels of the West lamentably unsafe.

Porter's Relief Bill.

WASHINGTON, Jan. 12.

Influences which controlled the New Jersey Senators in the Porter case are not regarded as strictly political, both Sewell and McPherson, like Porter, being identified with large

and controlling corporations whose influence has constantly been used in Porter's behalf. After the bill passed yesterday, Logan said he did not feel alarmed at the prospect of Porter's restoration. He is a long way from it yet. This bill will not pass. Even if it should, there are many obstacles in the way of his restoration after that.

Death of a Man who was Once Notorious.

BALTIMORE, Jan. 12.

Intelligence was received here today of the death of Dr. Samuel A. Mudd, at his residence in Charles county, Md. When John Wilkes Booth, the assassin, escaped from Washington he fled into Maryland and was sheltered at the Mudd mansion and had his fractured leg set by the doctor. Dr. Mudd was afterwards tried and sentenced for life to the Dry Tortugas, but was pardoned by President Johnson after a few years' imprisonment, because he aided materially in quelling a yellow fever epidemic on the island. Dr. Mudd sent a claim to Congress a few years ago, but it was rejected. He was at one time after his release a candidate for the State Legislature on the Democratic ticket, but was defeated.

JOTTINGS.

No finer weather in the world. The dance this evening is the only place of amusement.

There were only 20 emigrants on last night's train.

G. W. J. Wilson has his ice all up. It weighs nearly 400 tons.

Large quantities of California canned fruits are going east.

Purchase all your supplies to-night of Lindley, for to-morrow the stores will be closed.

The morning express had to wait here three-quarters of an hour for a late west-bound train.

Novelties of all descriptions at Nash's. Thermometer at 7, 9, 11, 1 and 3-12, 24, 30, 34, 34.

C. J. Brooks has a large stock of school books. Read ad. in 50-cent column.

There are ten compositors at the case in the State printing office, two pressmen, and five ladies doing the folding.

The Board of School Trustees advertise the two rear rooms of the old school-house for sale at public auction January 23. Read adv.

Johnny Belz, at the Palace barber shop, is winning a flood of custom, because he has plenty of help and is always ready to attend to a visitor.

Ducks are said to be plentiful along the sloughs in the meadows. Indians bring in considerable numbers of them, and are sure to ask good prices.

Mart Follett brought the Third House down on the noon train. It was composed of the C. & C. contingent of saps and minors from the far end of the road.

Talmage says spanking children should be done coolly, quietly, vigorously, and with the aim to let the lesson sink deep into their little hearts. Mr. Talmage betrays an ignorance of anatomy which is deplorable.

Members of Company C, 1st regiment, N. S. M., are ordered to assemble at the company armory on Monday evening, January 15th, at 8 o'clock in full-dress uniform, for inspection and meeting. Read notice in another column.

Wm. R. Chamberlain has received some beautiful petrifications from the Sailor Flat mine, Nevada county. They were presented by W. H. Wiseman, and are the finest specimens of petrified wood ever seen here. The outer room is much like chalcodony.

If a man don't know anything about a business he had better not engage in it. E. Meyer has been in the cigar and tobacco trade for a long time and is thoroughly familiar with it. Experience teaches him how to purchase, and customers get the benefit of this experience. Sample his prime cigars.

E. Chielovich & Co. are progressing in business solely upon merit. They carry a first-class stock, which will in all cases command first-class customers. Besides this, their manner of dealing with patrons is such as to commend the firm to the public. They are doing a fine wholesale business, and the retail department is closely looked after, so that it may lose none of its popularity.

Pullman, of palace-car fame, has built a short distance from Chicago, what may be termed a model town. It has immense workshops, churches, schools, libraries, but no saloons and gambling houses, and brothels are unknown. All he wants now to make the town a perfect paradise is a clothing store like the White House, where his employees can fit themselves out in good shape. No doubt Abraham Bros. would start a branch store if inducements were offered. They are the leading clothiers of Nevada.

The following explains the difference between "luck" and "chance." You take a girl out to the theater and then discover you haven't a cent in your pocket. You are, of course, compelled to invite her to an oyster saloon after the performance. She declines for some reason; that's "luck," but the "chance" is a million to one that she will accept. But no man was ever known to decline an invitation to take a drink at Chase & Thyes, where everything is so neat and nice, so prim and tony, that the very thought is refreshing. Go, imbibe, refresh yourself and be happy.

Trout Fishing.

There are trout in the river now, and anglers are studying their stories. Bacon went out the other day with a two inch angler and bored a hole in the ice. He came home soon with an eight pound trout and swore he caught it himself. He says if anybody don't believe it they can go and see the angler hole.

He Believes It.

It has been cold weather up at Bragg & Schooling's mill. Charley Hobbs, the bookkeeper, says the water in the tea-kettle froze one night when there was a fire in the stove.

A Social Flatter.

The Index says there is a genuine flatter in Carson society over the Governor's reception, which is to take place at the Opera House next Friday evening. It will be a Democratic affair and the leading society event of 1883.

MARK TWAIN.

He Tells of Some Peculiarities of the English Language.

Mark Twain has his little fling at those peculiarities of English spelling which retard the proficiency of dull scholars. He says: There are 114,000 words in the unabridged dictionary. I know a young lady who can spell only 180 of them right. She steers clear of the rest. She can't learn any more.

So her letters always consist of those constantly recurring 180 words. Now and then when she finds herself obliged to write upon a subject which necessitates the use of some other words, she—well, she don't write on that subject.

I have a relation in New York who is almost sublimely gifted. She can't spell any word right. There is a game called verbiage. A dozen people are each provided with a sheet of paper, across the top of which is written a long word, like kaleidoscopic, or something like that, and the game is to see who can make up the most words out of that in three minutes, always beginning with the initial of the word.

Upon one occasion the word chosen was cafferdam. When time was called everybody had built from five to twenty words, except this young lady. She had only one word—caff. We all studied a moment, and then said: "Why, there is no l in cafferdam." Then we examined her paper.

To the eternal honor of that un-inspired, unconscious, sublimely independent soul, be it said, she had spelled that word—caff! If anybody here can spell calf more sensibly than that let him step to the front.

PERSONALS.

John D. Fields of Humboldt is in town.

George T. Huscroft left for Honey Lake to-day.

J. Griffin and wife of Humboldt are at the Arcade.

J. B. Tolley and wife of Tuscarora are at the Palace.

Charley Moeller of Steamboat was in town to-day.

Ben Fitch came up from Sacramento this morning.

W. H. Morrison, road agent of the Bidwell stage line, left for the north to-day.

Lieutenant-Governor Laughton had all he wanted to do to-day greeting old friends in Reno, of whom he can boast of a large number.

B. D. Folsom of Gold Hill was in town to-day. He will probably become a solid Renoite before long, and will be sure to receive a hearty welcome.

Isaac Barnet is contemplating a visit to New York early in March, and will at that time buy a very extensive stock of Spring and Summer goods for this market.

Major Witcher and clerk returned from Fort Bidwell last night, where they had been to pay off the troops there, and this morning left for military posts east. The court martial at Bidwell is still in progress.

Mr. Pelton, business manager for Knowles & Bainbridge, goes below to-night; also W. H. Treadwell, who has been acting as book-keeper for the firm. Mr. Treadwell intends going to Oregon to reside in future.

The Tribune says Robert Glenn, late foreman of the GAZETTE office, now an attaché of the State printing office, had a severe attack of illness on Thursday evening. His brother, M. M. Glenn, of the Esmeralda Herald is attending to him.

GOOD TO KNOW.

How to Warm Your Feet Without Fire.

People who write or sew all day, or rather those who take but little exercise, may warm their cold feet without going to the fire. All that is necessary is to stand erect and very gradually to lift one's self up upon the tips of the toes, so as to put all the tendons of the foot at full strain. This is not to hop or to jump up and down, but simply to rise—the slower the better—upon tiptoe, and to remain standing at this point of the toes as long as possible, then gradually coming to the natural position. Repeat this several times, and, by the amount of work the tips of the toes are made to do in sustaining the body's weight, a sufficient and lively circulation is set up. Even a half-frozen teamster can carry this plan out. It is one rule of the "Swedish movement" system, and, as motion warms, persons who suffer with cold feet at night can try this plan just before retiring to rest.

The Glendale Lyceum.

The Glendale Debating Society held its first meeting at the Glendale Hotel last Wednesday evening. John W. Denning was chosen Chairman and Frank Savage Secretary. The subject discussed was: "Which is the Most Valuable; Gold or Iron?" It was decided in favor of iron. The subject for next Monday evening is: "Resolved, That Railroads are a Benefit to the Country."

"ESMERALDA."

Entirely Organized in Plot, Situation and Dramatic Treatment.

Monday night the Madison Square Company will present to a Reno audience the beautiful drama of "Esmeralda." Nearly 100 seats are engaged and the theater is sure to be crowded. The New York Evening Telegram speaks of the play as follows: "The success of 'Esmeralda' cannot be doubted. It is a charming story, touching and skillfully narrated, and it is dramatic in the purest; nay, highest sense. Every line is telling, and the interest in the fortunes of the people is not allowed to flag for an instant. The narrative is like all that Mrs. Burnett has written. Pure, simple and freighted with humanity. The heart-strings are touched firmly and with a certain hand. A play that young folks can see with impunity and profit. It will enjoy a long and happy career. It is acted by skillful and conscientious actors."

Matinees of "Esmeralda" in New York were conspicuous for the large number of ladies, young and old, in the vast audiences. The play appeals very strongly to the fair sex, yet is not altogether unimpartial of the sympathies of the attendant lords of creation, limited in number though they be. "Esmeralda" is certain to attract an immense house next Monday evening. Get your seats without delay.

What a Private Enterprise Has Done for the Southern Country.

The towns along the Carson & Colorado road are attracting considerable attention. Business men and prospectors are looking toward the southern country, but a day's ride from Reno, with high hopes of seeing some lively camps that will remind them of good times. Hawthorne, Garfield, Benton and Bishop Creek will become solid towns before many months. The C. & C. road is now running trains into Benton, which already feels the impulse of new life. The road has done wonders for a country that a year or two ago was almost unexplored.

A. L. of H.

Reno Council, No. 894, met last evening for the installation of officers for the next term. The following officers were installed: Commander, Judson S. Pelton; V. C., Mrs. Sarah J. Fowley; O., Mrs. Celia M. Palmer; P. C., David S. Tallman; Col., M. T. Barnett; Treasurer, W. H. Dickens; Chaplain, J. E. Fowley; Guide, C. W. Wellman; Sentry, J. F. Gunde; Secretary, A. B. Palmer.

Taking Advantage of the Rate.

A. J. Clark has just received a lot of fine groceries from Chicago direct, which the new rate enables him to sell at prices as low as the coarser goods that have filled the market heretofore. He has some beautiful sugar and a lot of white dip syrup; also a lot of fine Clough hams and bacon.

The First Requisition.

Railroad Detective Burke, on the 10th instant, obtained from Governor Stoneman of California the first requisition signed by the new officer, and coming to Nevada, received the first writ issued by Governor Adams. Burke was after a man named Thomas Gibson, charged with robbing freight cars. He took his prisoner to Sacramento.

A Carson Giant.

The Tribune emits a little music about the size of Reno women's feet. When the editor of the Tribune comes to Reno and strikes a soft place to walk on, the people think an elephant has laid down. If he had been bent off further down he would have been a giant. Two thirds of him lie on the cold, cold ground.

Nevada Nuggets.

Two brothers, named F. and D. Milleck, have this week found at Osceola, White Pine county, Nev., a gold nugget weighing 63 25-100 ounces, valued at \$1,012. This makes the fourth nugget found in that camp within a few weeks. The three previous finds are valued at \$5,000, \$1,080 and \$998 each.

A Busted Community.

The Windsor Operatic Company have met with financial failures in the different localities in which they have exhibited and their baggage is now under pawn at Truckee. The Treasurer has disappeared with what little funds they had on hand.

New Friends.

Senator Schooling has sold his business to Messrs. Folsom and Gallatin of Gold Hill, who will take possession on February first. The new firm is well known in the State, and will be warmly welcomed by many old friends in Reno. Senator Schooling has no idea of leaving Reno.

Our Visitors.

The train this morning brought over 180 ladies and gentlemen of the Legislature, members of the Government and their families, who were taken to the asylum, where they took lunch and went over the building and grounds.

The injured leg of the little Drogie girl is painful even to look at. The smashed bones stick out through the flesh; they cannot be kept in their place, and it is not possible at present to tell what the result is going to be.

On Monday evening a clean-up was made at the Crescent mine after a four days' run with four stamps, and the result was \$4,000 of bullion.

The Taylor-Plumas mill is almost completed; little more than laying the water pipe remains to be done. The Green Mountain mills are both running steadily, and have been yielding better during the past week or two.

RUNNING MATES.

A System of Rigging and Driving Double Teams.

In regard to trotting matches in which trotters are hitched with running mates, Dan Mace, who has valid claims as the originator and perfecter of the system of rigging and driving double teams, says: "I hitched up a pair in this way about thirty years ago, but the first race with running mates for money was between Ethan Allen and Lantern. Colonel Joseph Hall, who owned Lantern, had tried him alongside a runner, and many believe he is the inventor of the rig. You know Ethan beat him, but Lantern made a dead heat in 2:24 1/2, which was about seven seconds faster than he could trot in harness. This was in 1859; two years afterward Ethan and mate beat Flora Temple in 2:19 3/4, and in 1867 I beat Dexter with him in 2:15, which stood unbeaten until 1870, when Billy Dand mate went in 2:14. This remained the best on record until Yellow Dock's wonderful performance on the Narragansett Park track.

## SUMMONS.

IN THE DISTRICT COURT OF THE Second Judicial District of the State of Nevada, in and for the county of Washoe, The State of Nevada sends to Arden Jones greeting:

You are hereby required to appear in an action commenced against you as defendant by Emma Jones as plaintiff in the District Court of the Second Judicial District, in and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this summons (exclusive of the day of service). If served in said county, or twenty days if served out of said county, but within said District, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain a decree dissolving the bonds of marriage between plaintiff and defendant, and to obtain a decree of divorce from the plaintiff and defendant in matrimonial bonds, on or about July 19th, A. D. 1873, and ever since have been and now are husband and wife; that out or about Sept. 9th, A. D. 1873, you, the defendant, willfully deserted and abandoned plaintiff, and ever since have so continued, and now do so continue to desert, abandon and live apart from plaintiff, against her will, wish or consent; that for more than two years next preceding the commencement of this action you, the defendant, have failed and neglected, and now fail and neglect to provide for plaintiff the common necessities of life, which neglect is and was not the result of poverty on your part which you could not have avoided by ordinary industry; that there are no children living of the issue of said marriage, and no common property. Plaintiff prays to be restored to her maiden name, and for costs, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court, at Reno, in said county, and you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof I, P. B. COMSTOCK, have hereunto set my hand and affixed the seal of said Court this 23rd day of December, A. D. 1878.

Roberts, duly attested on the 6th day of January, 1883, and to me directed and delivered on that day, commanding me to make, out of the personal property of said Levi T.
